AS WE LEARN MORE ABOUT THESE  
FASCINATING PEOPLE!

Jan Kasoff

Jan Kasoff is an Emmy winning former NBC cameraman who spent 36 years on Saturday Night Live. He will be speaking about what life was like on the set, with all the challenges he faced over the years and providing us with insider trivia. This will be a wonderful evening for us as we learn what it REALLY was like to be a member of the SNL team!

Tony Barboza

Mr. Barboza has a prolific and wide range of both traditional and innovative African-American thought inspired works that have been exhibited in public and private galleries, and prestigious museums and educational institutions worldwide. He is well known for his photographic work of jazz musicians from the 70's - 80's. He will provide fascinating insights into his work.

Camille Perri

Ms. Perri started her career as a page at the East Meadow Public Library and quickly showed what a star she would be! After becoming a librarian, Camille became an assistant editor and books consultant at Esquire. Her new post is an exciting one as books editor at Cosmopolitan. Camille's new book, which has received advance rave reviews and is being negotiating for a movie deal, will be out in 2016. She will give us a heads up on the new books of the summer and what it's like working at Cosmo!
